## EXPERIENCE

**Google** *January 2020 - Present*

Senior Python Developer

Architected and implemented a scalable microservice infrastructure using Python and Kubernetes, achieving a 40% reduction in server costs by optimizing resource allocation.

Led a team of 4 Python developers in a high-stakes project, integrating machine learning models into core products, resulting in a 15% increase in user engagement. Streamlined data processing workflows with Python, enhancing data retrieval speeds by 30% while maintaining 99.9% system uptime.

Pioneered the adoption of Python 3.8 features within the team, leading to a 20% improvement in code maintainability and future-proofing the application suite.

Generated a robust suite of automated tests using pytest, leading to a 50% decrease in bug recurrence and improving code deployment cycles by two-fold.

**Resume Worded** *June 2017 - December 2019*

Python Developer

Developed a client-facing web application using Django, resulting in a 25% increase in customer satisfaction through enhanced user experience.

Performed data analysis with Pandas and NumPy, identifying key market trends that shaped the product roadmap and directed strategic planning.

Integrated RESTful API services, enabling seamless third-party data integration and expanding the application's functionality for end-users.

**Salesforce** *March 2015 - May 2017*

Junior Python Developer

Contributed to a major version release of a CRM tool, coding in Python and leveraging Flask, that improved customer data management efficiency by 35%.

Participated in daily scrum meetings, enhancing team communication and project transparency, reducing project delays by 20%.

**Coached.com** *January 2014 - February 2015*

Python Developer Intern

Assisted in the development of a Python-based analytics tool that enhanced marketing strategy decisions by providing insights into customer behavior patterns.

## EDUCATION

### **Resume Worded University***May 2020*

Master of Science in Computer Science

Concentration in Machine Learning and Artificial Intelligence

### **Resume Worded Institute***June 2012*

Bachelor of Science in Software Engineering

Part-time program, Graduated with Honors

## SKILLS

**Programming Languages:** Python (Advanced), JavaScript (Intermediate), Java (Intermediate), C++ (Basic), Scala (Basic), PHP (Intermediate)

**Frameworks & Libraries:** Django (Advanced), Flask (Advanced), React (Intermediate), Node.js (Intermediate), AngularJS (Basic), TensorFlow (Intermediate)

**Data Management:** MySQL (Advanced), PostgreSQL (Advanced), MongoDB (Intermediate), Redis (Intermediate), Apache Cassandra (Basic), Elasticsearch (Basic)

**Tools & Platforms:** Git (Expert), Docker (Advanced), Kubernetes (Intermediate), Jenkins (Intermediate), AWS (Advanced), Google Cloud Platform (Advanced)

## OTHER

**Certifications:** Certified Kubernetes Administrator (2021), AWS Certified Developer – Associate (2019)

**Industry Contributions:** Speaker at PyCon 2020, Contributor to Python Software Foundation

**Awards:** Google Developer Expert (GDE) for Cloud, 2021

**Publications:** Published 'Efficient Python Coding Techniques' on LinkedIn Learning (2022), Co-authored 'Advanced Python Programming' for O'Reilly Media (2020)
